

Centre County *Health Initiative*

Penn State and its local healthcare partners continue to support quality, affordable, and accessible healthcare for University employees and their family members who reside in Centre County. As Penn State's Centre County Health Initiative enters its fifth year, the University and its partners continue to support medical providers that provide 24-hour, 365-day-a-year medical service to the University Park community.

As always, you have a choice of where to receive medical services. However, by using a Centre County Health Initiative provider, you will not pay a copayment for certain services. If your doctor refers you to a provider outside of the Centre County Health Initiative, Penn State strongly recommends that you make your doctor aware of the financial advantage that comes with using a Centre County Initiative provider.

2009 Penn State Centre County Health Initiative Providers:

- Mount Nittany Medical Center
- Mount Nittany Surgical Center
- Penn State Milton S. Hershey Medical Center, including Penn State Sports Medicine
- University Orthopedics Surgical Center
- Centre Medical & Surgical Associates

If you have any questions about the Centre County Health Initiative, please call Highmark Blue Shield at 1-800-914-4384.
